Building Indonesia's AI stack, from power to models.

Indonesia is entering a defining era of artificial intelligence, where access to advanced computing power, secure digital infrastructure, and sovereign AI capabilities is becoming essential to national competitiveness and economic growth.

As AI adoption accelerates across banking, telecommunications, manufacturing, healthcare, energy, and government services, the demand for high-performance computing, GPU infrastructure, AI-ready data centers, and sovereign cloud solutions is creating new investment opportunities across the country.

Sovereign AI & Infra Indonesia Summit 2027 is a high-level business forum bringing together government policymakers, technology leaders, infrastructure investors, data center operators, cloud providers, and enterprise decision-makers to explore the technologies, investments, and partnerships shaping Indonesia's AI infrastructure landscape.

The summit will examine critical issues including national AI sovereignty, GPU and computing capacity, AI data center development, data residency, infrastructure financing, energy efficiency, and enterprise AI deployment.

Beyond technology discussions, the event emphasizes real-world investment, commercial opportunities, infrastructure development, and practical implementation.

Through strategic keynotes, executive panel discussions, and high-value networking, the summit aims to connect infrastructure providers with technology buyers, investors, regulators, and industry leaders—accelerating the development of a secure, scalable, commercially viable, and future-ready AI ecosystem in Indonesia.

Top 8 topics

01 **Indonesia's Sovereign AI Strategy & National Roadmap**

02 **AI Compute Infrastructure, GPUs & AI Factories**

03 **AI-Ready Data Centers & Hyperscale Infrastructure**

04 **Sovereign Cloud, Data Residency & AI Governance**

05 **Enterprise AI Infrastructure & Private AI Deployment**

06 **Power, Cooling & Sustainable AI Data Centers**

07 **AI Infrastructure Investment, Financing & Partnerships**

08 **AI Infrastructure Security, Resilience & Global Connectivity**

Speakers

Speakers to be announced. Invited speaker profiles across government, BUMN, operators and investors

TBA
Senior Government Leader
Indonesian Government

TBA
Vice Minister
Indonesian Government

TBA
Chief Executive Officer
Leading Indonesian Investment Fund

TBA
Research & Innovation Leader
National Research Institution

TBA
Chief Executive Officer
Sovereign Infrastructure Investor

TBA
President Director
Major Indonesian Telco

TBA
Head of AI
Major Indonesian Telco

TBA
President Director
National Energy Utility

TBA
Chief Executive Officer
Leading Indonesian ICT Provider

TBA
Chief Executive Officer
Leading Indonesian Data Center Operator

TBA
Chief Executive Officer
Regional Data Center Platform

TBA
President Director
Major Indonesian Bank

TBA
Director of IT
Major Indonesian Bank

TBA
Sovereign Cloud Leader
Global Hyperscaler

TBA
AI Compute Leader
Global Semiconductor Company

TBA
Chief Executive Officer
Pan-Asian Data Center Developer

TBA
Chairman & CEO
Asia-Pacific Data Center Operator

TBA
General Manager, Indonesia
Global Data Center Operator

TBA
Chief Executive Officer
Digital Infrastructure Provider

TBA
Chief Data & AI Officer
Major Indonesian Telco

Delegate Demographics

By Business Nature

- Government Ministries & Regulatory Authorities
- Banking, Financial Services & Insurance
- Telecommunications & Digital Service Providers
- Cloud Computing & Hyperscalers
- Data Center Developers & Operators
- AI Technology & Computing Providers
- Energy, Utilities & Infrastructure
- Manufacturing & Industrial Enterprises
- Healthcare & Public Services
- Infrastructure Investors & Financial Institutions
- Engineering & Technology Consultants
- System Integrators & Enterprise Technology Services

By Job Function

- Chief Executive Officer / Managing Director
- Chief Information Officer
- Chief Technology Officer
- Chief Digital Officer
- Chief AI Officer / Chief Data Officer
- VP / Director of IT Infrastructure
- VP / Director of Data Centers
- Head of Cloud & AI Infrastructure
- Head of AI / Machine Learning
- Head of Digital Transformation
- Head of Cybersecurity / Data Governance
- Head of Engineering & Operations
- Head of Investment / Infrastructure Development
- Head of Procurement / Technology Sourcing
- Government Policymakers & Regulators

By Country or Region

- Indonesia (Primary Market)
- Singapore
- Malaysia
- Thailand
- Vietnam
- Philippines
- Greater China
- India
- Japan & South Korea
- Australia & New Zealand
- Europe
- North America
- Middle East

Why Indonesia, why now

~600 MW
Operating data-center capacity in 2026

~3 GW
Estimated need by 2030

287M
People, with 235 million internet users

USD 1.7B
Microsoft cloud and AI commitment

- Rules are landing: the National AI Roadmap 2026–2029, AI-ethics rules, the PDP agency and the Satu Data law.
- Money is moving: Indosat's Zankore, NeutraDC's 400 MW plan and Danantara's technology agenda.
- Demand is running ahead of supply, so 2027–2028 decisions on sites, power and partners matter.

Invited organisations

Organisations and sectors we are inviting: government, BUMN, operators, enterprises and investors

- Government ministries & regulators
- National agencies & BUMN
- Sovereign & infrastructure investors
- Development finance institutions
- Major Indonesian banks
- Major Indonesian telcos
- Digital natives & platforms
- Industry associations
- Leading Indonesian data center operators
- Regional & global data center operators
- Global hyperscalers & cloud providers
- GPU & AI compute leaders
- Network & equipment vendors
- National energy utility & power providers
- Universities & research institutes
- Technology investors & venture capital

TOP REASONS TO ATTEND

Hear the policy first-hand
The AI roadmap, data rules and investment incentives that decide where projects go.

Book the right meetings
Opt-in 1-to-1 meetings and hosted topic tables at lunch.

Meet the buyers of AI capacity
Government, BUMN, banks, telcos and digital natives choosing partners.

Understand 'sovereign' in a contract
What localisation, PDP and security rules mean for procurement.

The full stack in one day
Compute, power, networks, models, data, security and money, in order.

Find capital and partners
Sovereign, venture and infrastructure investors meet project owners.

Practical answers, not hype
Short keynotes with numbers, panels with clear next steps.

Take the insights home
Post-event summary and approved slides for all delegates.

Draft Agenda

All times Western Indonesia Time (WIB, UTC+7)

Morning Session — Strategic Keynotes

09:00–09:10	**Conference Opening Remarks**	Welcome address and introduction to the summit's objectives.
09:10–09:30	**Indonesia's Sovereign AI Vision: Building National Computing Independence**	National priorities, policies, and infrastructure requirements for developing a resilient and competitive sovereign AI ecosystem.
09:30–09:50	**Investing in Indonesia's AI Infrastructure: From Ambition to Deployment**	Investment opportunities, financing strategies, and partnerships accelerating the development of Indonesia's AI computing infrastructure.
09:50–10:10	**Building Indonesia's Next Generation of AI Data Centers**	The evolution of hyperscale and AI-ready data centers to support high-density GPU clusters, enterprise workloads, and emerging AI demand.
10:10–10:40	Morning Tea Break & Networking	Refreshments and business networking.
10:40–11:00	**GPU Computing & AI Factories: Powering the Next Wave of AI Innovation**	Advanced GPU architectures, AI computing platforms, and scalable infrastructure for training, fine-tuning, and inference.
11:00–11:20	**Sovereign Cloud & Data Residency: Securing Indonesia's Digital Future**	Local cloud deployment, data sovereignty, regulatory requirements, and secure AI infrastructure for government and regulated industries.
11:20–11:40	**Enterprise AI Infrastructure: Moving from AI Pilots to Production**	Practical infrastructure strategies for deploying private AI, enterprise LLMs, and intelligent applications at scale.
11:40–12:00	**Powering AI: Energy Infrastructure, Cooling & Data Center Efficiency**	Addressing the electricity, cooling, operational efficiency, and sustainability requirements of next-generation AI computing facilities.
12:00–13:00	Networking Lunch	Business lunch and networking opportunities.

Afternoon Session — Industry Leadership & Executive Panels

13:00–13:20	**Building an AI-Ready Indonesia: Connecting Compute, Cloud & Enterprise Demand**	Aligning national computing capacity, cloud infrastructure, and technology investment with real-world enterprise AI adoption.
13:20–14:05	**Panel Discussion: Who Will Finance Indonesia's AI Infrastructure Boom?**	Exploring investment appetite, project financing, public-private partnerships, commercial viability, and the challenges of turning announced projects into operational infrastructure.
14:05–14:50	**Panel Discussion: Sovereign AI vs Global Cloud — Finding the Right Balance for Indonesia**	Examining the roles of domestic infrastructure, international hyperscalers, open-source AI models, and regulatory frameworks in building national AI capabilities.
14:50–15:20	Afternoon Tea Break & Networking	Refreshments and business networking.
15:20–16:05	**Panel Discussion: Building AI-Ready Data Centers — Power, Cooling, Connectivity & GPU Infrastructure**	Addressing technical and operational challenges associated with high-density AI facilities, advanced cooling, reliable electricity, and next-generation network architecture.
16:05–16:50	**Panel Discussion: Who Is Buying AI Compute? Real Enterprise Demand, Deployment & Investment Priorities**	Bringing together technology buyers from banking, telecommunications, government, and major industries to discuss actual infrastructure requirements, procurement decisions, implementation challenges, and future investment priorities.
16:50–17:00	**Conference Closing Remarks**	Key takeaways and future opportunities for collaboration across Indonesia's AI infrastructure ecosystem.

YOU WILL EXPERIENCE

- One room, no parallel tracks
- Short, numbers-led keynotes
- Panels with all sides
- Opt-in 1-to-1 meetings
- Hosted topic tables at lunch
- Sovereign AI Showcase
- Post-event summary

The venue: AYANA Midplaza, Jakarta

Escom Events summits at AYANA Midplaza, 2026

AYANA Midplaza is a five-star hotel in Jakarta's Sudirman business district, a two-minute walk from Setiabudi Astra MRT station and about 45 minutes by car from Soekarno-Hatta International Airport. Its Grand Ballroom hosts the main conference and divides into two rooms. The pre-function foyer hosts the exhibition and coffee, JimBARan Garden suits the evening reception, and dedicated meeting rooms serve 1–to-1 meetings and the VIP lounge. With guest rooms on site, speakers and delegates can stay where they meet. Escom Events' BFSI and Retail Indonesia summits were both held here in 2026.

Event floor plan

Floor plan coming soon

Delegate pass

Senior end-users and officials attend free by invitation.

Invited VIP delegate Director level and above from government, regulators, BUMN and end-user organisations	BY INVITATION	Complimentary
End-user delegate End-user staff outside the VIP criteria	USD	398
Solution provider Vendors, operators, integrators and advisers not sponsoring	USD	798
Start-up Approved Indonesian start-ups under 5 years	USD	398

Included: Full conference, lunch and refreshments, event app with 1–to-1 meeting booking, and the post-event summary.

Key dates

- **15 Mar 2027**
  Agenda published
- **20 Apr 2027**
  Registration & applications close
- **22 Apr 2027**
  Summit day, AYANA Midplaza Jakarta
- **By 26 Apr 2027**
  Summary and slides to sponsors

Good to know

- Programme in English; some government keynotes in Bahasa Indonesia.
- Visa letters on request for international delegates and speakers.
- Business dress. Halal catering throughout; prayer room on site.
- All times Western Indonesia Time (WIB, UTC+7).

What delegates and partners say

Voices from previous Escom Events summits in Indonesia and the region

> *The discussions, the panels, and the overall environment have been truly fascinating. There have been many excellent speakers and intriguing topics. I am also excited to see the region embracing cybersecurity change and sustainability in general. I must say, I've been truly impressed by the speakers. It has been a privilege to be at the Cyber Security Indonesia Summit in Jakarta.*

Indosat Ooredoo Hutchison
Cyber Security Indonesia Summit 2024

> *It's great to communicate in the event, it's great for us to be able to have a platform to share some of our best practices, key insights, key objectives that we want to achieve together, especially in the world of AI and generative AI altogether. It's very helpful that we are able to connect with the industry leaders.*

IBM
BFSI Indonesia Summit

> *The Cyber Security Indonesia Summit has been exceptionally enriching. The speakers have been truly outstanding. I believe the topics covered have been highly interdisciplinary, encompassing not only simple security but also delving into blockchain and AI and exploring how these technologies can be seamlessly integrated to forge a better world. Thus far, the experience has been nothing short of amazing.*

Blockchain Founders Club
Cyber Security Indonesia Summit 2024

> *It's very exciting and encouraging to see 300+ delegates and Microsoft being one of the sponsors. It was great to see the energy and trying to understand the local trends and what is on top of mind of our clients. We're on the brink of an industry revolution, and clients need to think out loud about how to serve their customers better. We've talked about customer experiences, empowering employees, business operations and optimizations and the way to transform its products. It was an eye opener that the customers are looking at digital channels as part of its strategy, and we love to make sure they use technology to maintain their advantages.*

About Escom Events

2014
Founded

40+
Summits a year

79,000+
Business leaders connected

2,000+
Sponsors and partners

Escom Events builds executive B2B conferences across Southeast Asia's high-growth markets. Founded in 2014, it runs 40+ industry summits a year in AI and technology, cybersecurity, banking and fintech, retail, hospitality, HR, semiconductors and energy. In Indonesia, Escom Events runs BFSI Indonesia, Cyber Security Indonesia Summit, Retail & E-Commerce Innovation Summit Indonesia, Hotel Innovation Summit Indonesia and HR & WorkTech Indonesia, and has organised events in the country for more than a decade. It also runs the Asia AI Infrastructure Malaysia Summit.
